Monthly management pack

2026-06 - prepared from the seeded synthetic ledger

-73,405.91	-19.38%	-0.74%	120
gross profit variance (KES)	gross profit vs budget	revenue vs budget	product lines with an owner

Revenue came in 0.74% off budget; gross profit came in 19.38% off it. The largest driver is price, and the four drivers reconcile to the cent. This pack decomposes all 120 lines, attributes each to a department and names the owner of every action.

Gross profit bridge - 2026-06

Budget 379K to actual 305K. Price is 57% of the 73K shortfall; volume is the only driver in the business's favour.

Axis starts at 301K, not zero. Each bar carries its value and its share of the 73K gap.

The bridge: budget to actual, four drivers, each labelled.

Where the profit went

Driver	KES	Share of budget GP
Volume - total units at budget margin per unit	8,755.42	2.31%
Mix - a different blend at budget margins	-14,164.16	-3.74%
Price - actual units at the change in selling price	-41,943.76	-11.07%
Cost - actual units at the change in unit cost	-26,053.41	-6.88%
Total variance	**-73,405.91**	

Flexed budget - actual volume at budget price and cost - is 373,335.76. Volume plus mix explains the difference from budget; price plus cost explains the difference from the flex.

Who owns it

Department	Variance (KES)	Share of gap
Branch Sales	8,755.42	12%
Commercial / Pricing	-41,943.76	57%
Category Management	-14,164.16	19%
Procurement	-26,053.41	35%

Branches, judged on a trend basis

Branch	Units vs budget	Rolling gap % (+ ahead)	Adverse months	Off track
Nairobi CBD	+750	8.87%	0	no
Nakuru	+473	9.03%	0	no
Mombasa Road	-714	-10.86%	3	yes

The ten worst lines

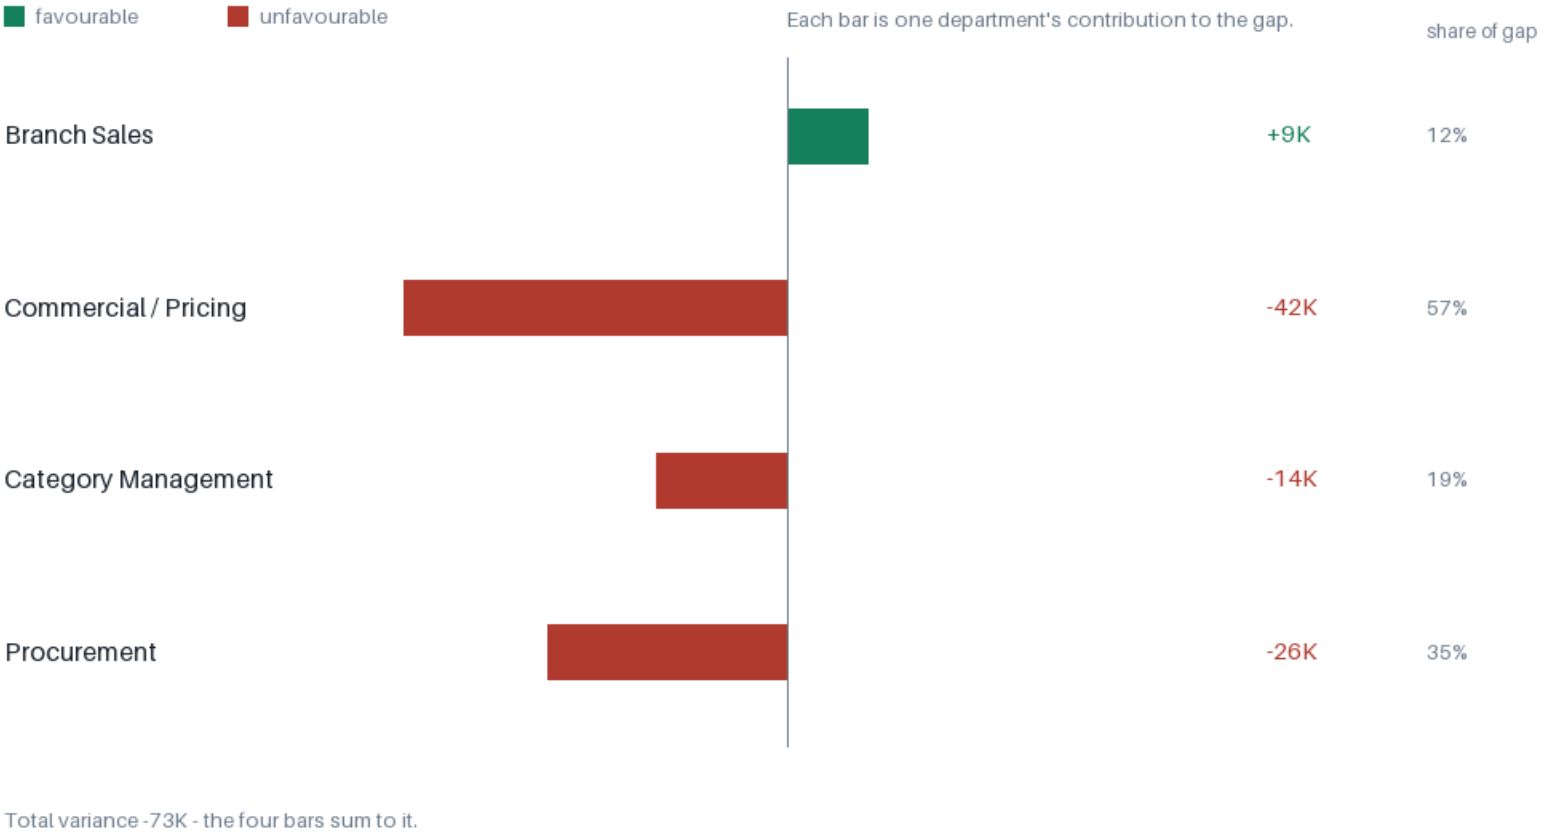

Branch	Product	Variance	Price	Unit cost	Owner
Nakuru	Fabric Softener 1L	-3,950.82	-2,742.60	-1,068.00	Commercial / Pricing
Nakuru	Scouring Powder 500g	-3,527.86	-2,428.80	-970.75	Commercial / Pricing
Mombasa Road	Fabric Softener 1L	-3,427.92	104.40	-1,288.80	Branch Sales
Mombasa Road	Scouring Powder 500g	-3,051.30	-92.96	-1,162.00	Branch Sales
Nakuru	Air Freshener 300ml	-2,824.04	-1,963.84	-860.20	Commercial / Pricing
Nakuru	Toilet Cleaner 750ml	-2,732.60	-1,807.00	-925.60	Commercial / Pricing
Nairobi CBD	Fabric Softener 1L	-2,652.86	-79.38	-2,573.48	Procurement
Mombasa Road	Toilet Cleaner 750ml	-2,563.21	-5.30	-1,161.23	Branch Sales
Nakuru	Laundry Bar 800g	-2,349.53	-1,578.26	-771.27	Commercial / Pricing
Mombasa Road	Air Freshener 300ml	-2,259.90	110.16	-893.52	Branch Sales

The ten worst lines account for 29,340.04 of the 73,405.91 gap. 5 of them sit in Nakuru, and Commercial / Pricing owns 5. The single worst is Fabric Softener 1L in Nakuru at -3,950.82.

All 120 lines with price, unit-cost, volume and owner are in outputs/tables/line_variance.csv.

Who owns the variance

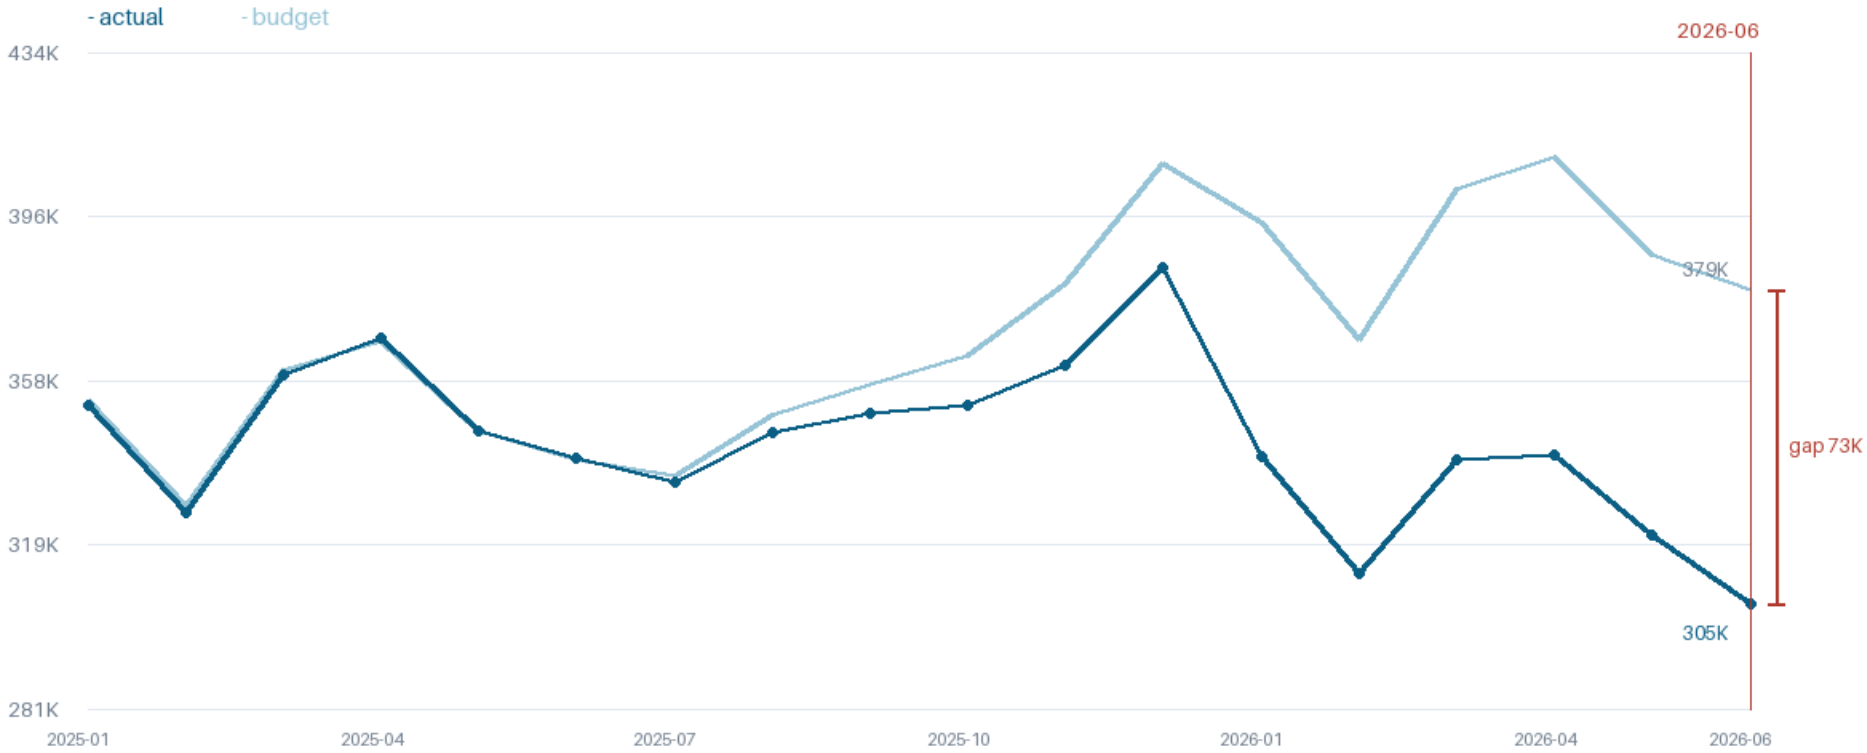

Commercial / Pricing carries 57% of the 73K gap; 1 of 4 departments is in the business's favour.

Every department's contribution to the gap, with its share.

Gross profit against budget

Eighteen months of actual against the phased budget - every one of the last six months below plan, 2026-06 -73K against budget.

Same seeded ledger; budget re-phased each January.

Actual against the phased budget, with the current gap labelled.

What I would do first

Owner	Action	Value (KES)
Branch Sales	Rebuild the Mombasa Road trading plan against the trend gap	41,382.41
Commercial / Pricing	Reissue the Nakuru price file and cap discount authority at 7%	40,901.06
Procurement	Renegotiate Home Care supply terms or reprice the range	25,934.14
Category Management	Review Staples ranging, promo depth and shelf allocation against the budgeted blend	14,164.16

The evidence behind each action

Mombasa Road (3 months) - Units below budget in 3 of the last 3 months, 10.86% down on a rolling basis: this is a branch drifting, not one bad month, and the unit gap is worth KES 41,382.41 of gross profit at budget margins.

Nakuru - Prices realised 9.87% below the budgeted price for the volume actually sold, costing KES 40,901.06 of gross profit on KES 379,260.56 of budgeted branch revenue.

Home Care - Unit costs on Home Care are running 6.56% above budget on the volume bought, costing KES 25,934.14 of gross profit.

Product mix - The blend moved towards lower-margin lines: Staples went from 25.00% of budgeted units to 31.56% actual, costing KES 14,164.16 of gross profit at budget margins.

Method and limits

- Volume is total units at budget gross profit per unit; mix is the residual, so the four parts reconcile to the cent rather than approximately.
- Gross profit only: no overhead allocation, no tax, no foreign exchange, no write-offs. This is a trading pack, not a P&L.
- The ledger is synthetic and seeded; the fingerprint proves which ledger produced these numbers, and a hand-edited line fails the published checks.
- 120 product lines, three branches, eighteen months, and seventeen published checks over sixteen distinct identities.
- Regenerate the pack with make run; rebuild this PDF and the deck with make docs.
